

## FogChain's RadJav Rapid Application Development Platform Pushes Out Major New Release and Enters Beta

*Tuesday – April 2, 2019*

**VANCOUVER, BC and SAN CARLOS, CA / ACCESSWIRE / April 2, 2019 /** (OTCQB: FOGCF; CSE: FOG; FRA: MUU3) **FogChain Corp** ("FogChain" or the "Company") is excited to announce a major new release update with Trident's rapid application development suite, RadJav. Trident is a unified cross-platform application development, testing and monitoring services solution. RadJav, an integral part of the Trident platform, is the rapid application development suite which enables developers to quickly and cost-effectively create new applications using a single code-base while being natively deployed across desktops, tablets, mobile devices and the web. RadJav is fully integrated with all major operating systems such as Linux, Windows, macOS, Android and iOS.

Trident's RadJav just released its latest version (version 0.30.0) and now moves from the Alpha phase into the Beta phase. Highlights of this latest release include:

- Create native applications using a single codebase across all mainstream desktop, tablet and mobile operating systems
- Fully integrated with FogChain's Trident platform for development, testing and monitoring
- Cryptographic library included for the development of secure apps
- Visual Studio code is integrated and will be fully bundled for easy setup and deployment of applications
- Bundled batch file scripts to easily and quickly create iOS and Android apps
- Easily create databases using RocksDB, an embeddable key-value store for fast storage
- Full documentation, templates, and examples provided in our GitHub repository

FogChain's CEO, James Cerna, commented, "RadJav's latest release significantly contributes to the efficiency and effectiveness we achieve in the developing applications for our clients. This elevates our Trident platform to an entirely new level as an end-to-end development, testing and monitoring solution for enterprises and development firms, and enables us to deliver one of the most compelling and cost-effective technologies in the marketplace. We're very grateful to our talented development team for its efforts to achieve this major milestone and for its vision to create such an incredible piece of software."

Nathanael Coonrod, VP of Engineering for FogChain and the inventor of RadJav, stated, "We've been looking forward to this day for a long time and are very excited about releasing our full Beta version of RadJav. With the recent integrations of Android, Visual Studio Code and Chrome Developer Tools, we believe that developers and enterprises alike can achieve significantly greater yield out of their development efforts with added simplicity, lower cost and less time to market."

The new release is available on FogChain's website (<https://www.fogchaininc.com/download.html>), as well as through our main software and documentation repository at GitHub (<https://github.com/FogChainInc/RadJav/releases>).

### **About FogChain Corp.**

FogChain (OTCQB: FOGCF; CSE: FOG) is a fully integrated, end-to-end software development life cycle (SDLC) and quality assurance solutions provider. Combined with a decentralized Fog (edge network) and high-performance application development platform, FogChain's suite of services and technology provides application development at scale with greater speed, greater efficiency and at a lower cost. With the recent explosive demand for more edge computing and security within the Micro-Service, IoT, mobile data and driverless vehicle space, FogChain's Build-Once-Deploy-Everywhere software architecture provides developers with a suite of tools and resources that bridges devices and operating systems, and the ability to build and launch exciting new applications in a unified environment.

### **FORWARD LOOKING STATEMENTS**

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking statements") within the meaning of the applicable Canadian securities legislation. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as at the date of this news release. Any statement that involves discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "budget", "scheduled", "forecasts", "estimates", "believes" or "intends" or variations of such words and phrases or stating that certain actions, events or results "may" or "could", "would", "might" or "will" be taken to occur or be achieved) are not statements of historical fact and may be forward-looking statements. In this news release, forward-looking statements relate, among other things, to: the terms and conditions of the Transaction; use of funds; and the business and operations of the Company. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors which may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking statements. Such factors

include, but are not limited to: general business, economic, competitive, political and social uncertainties; and the delay or failure to receive board, shareholder or regulatory approvals. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on the forward-looking statements and information contained in this news release. Except as required by law, the Company assumes no obligation to update the forward-looking statements of beliefs, opinions, projections, or other factors, should they change, except as required by law.
